Re: BDS Contractors

To whom it may concern:

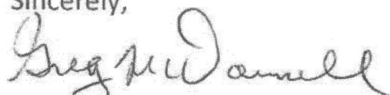

Rancho San Pasqual HOA had the need to renovate our Club House and Community Pool facilities in the winter of 2017. The estimated value of work was \$650,000. During the bidding process we were introduced to BDS Contractors and Mr. Greg Purdy of whom is the owner of said company. It wasn't long after this initial meeting that it became evident BDS would be the company we'd like to work with.

Upon awarding of contract to BDS due to being low qualifying bid their amazing personal touch and cooperation was above and beyond our expectations. BDS provided samples and data sheets of all associated scopes of work, including attending numerous designer and onsite meetings at no added costs.

The attention to construction details and quality is at very high level amongst all their staff and contractors.

In short, Rancho San Pasqual can strongly recommend BDS Contractors as the most competent contractor you can engage for your project needs.

Sincerely,

Greg McDonnell

Vice-President

Rancho San Pasqual HOA
